PRESS RELEASE

Women in eDiscovery Names 2018 National Sponsors

MINNEAPOLIS, MN – February 14, 2018 – [Women in eDiscovery](#), an organization that brings together women interested in technology related to the legal profession, announced today its national sponsors for 2018. Women in eDiscovery (WiE) does not collect membership dues and is completely reliant on sponsors to support its operations and events.

“The support of our national sponsors in the legal community is remarkable,” states Jackie Rosborough, executive director of Women in eDiscovery. “We are grateful to these companies as they show their incredible support of WiE and its mission. Because of our sponsors’ amazing generosity, we are able to provide networking opportunities, educational programs and a variety of other activities to our members.”

2018 National Sponsors

Whether it's for investigation, litigation or compliance, AccessData offers industry-leading solutions that put the power of forensics in your hands. For 30 years, AccessData has worked with more than 130,000 clients in law enforcement, government agencies, corporations and law firms around the world to understand and focus on their unique collection-to-analysis needs. The result? Products that empower faster results, better insights, and more connectivity.

Beacon Hill Legal partners with law firms and corporations offering the very best legal contract staffing solutions, document review services, and direct-hire and executive search resources, placing the legal market's top attorneys, paralegals, and legal support professionals.

Consulting with small boutique practices, regional and national law firms, and corporate legal departments across the country, Beacon Hill Legal utilizes a talented temporary and contract workforce together with an industry-leading team of executive search, placement, and staffing consultants to deliver the very best legal placement services to those we represent.

Associates and partners, group mergers and firm expansions, GCs and in-house positions, complex document reviews and legal translation services; Beacon Hill Legal is the Nation's top full-service legal project, search and staffing resource.

Casepoint is a technology company focused on the digital transformation of litigation discovery. Casepoint's cloud-based eDiscovery platform removes significant barriers from the discovery process, enabling legal teams to focus on the art of litigation. Features of Casepoint include a full-strength review platform with artificial intelligence pre-installed, cloud analytics and collections, and robust data processing capabilities all in a single technology platform. Based in the United States and with offices in three continents, Casepoint is repeatedly chosen by leading law firms, multinational corporations, and public sector clients for their largest, end-to-end discovery needs. Casepoint is smarter eDiscovery.

Catalyst designs, hosts, and supports the world's fastest and most powerful document repositories for large-scale discovery and regulatory compliance. For more than 15 years, corporations and their counsel have relied on Catalyst to help reduce litigation costs and take control of complex legal matters.

Exterro®, Inc. is the preferred provider of software specifically designed for in-house legal and IT teams at Global 2000 and AmLaw 200 organizations. Founded with the simple vision that applying the concepts of process optimization and data science to the way companies respond to litigation would drive more successful outcomes at a lower cost, Exterro has been positioned as a Leader in the last three years of Gartner's Magic Quadrant for E-Discovery Software. Built on an open architecture platform, Exterro's e-discovery and information governance software integrates with existing IT, HR and legal systems to deliver complete visibility into all critical data required for managing information assets more efficiently.

The MCS Group, Inc., a certified Women's Business Enterprise, is a nationally-recognized provider of outsourcing services. For more than three decades, we have served law firms, insurance companies, corporations, government agencies and educational institutions with cutting-edge technology and a comprehensive breadth of services including records retrieval & analysis, deposition, eDiscovery, facilities management and back office solutions to help increase productivity while reducing operational costs.

A leader in Corporate Discovery Management, NightOwl Discovery helps companies in the most demanding industries reach their discovery, investigations and data analysis objectives. NightOwl helps enterprise customers maximize investments in people, process and technology. NightOwl provides a comprehensive and global discovery offering that spans the entire EDRM for customers in the US, EU and APAC

ONE Discovery created the only unified eDiscovery processing, review, management and trial preparation solutions built from the ground up for eDiscovery professionals, by eDiscovery professionals. Every piece of ONE Discovery's platform – from the fair, flexible pricing model and instant scalability to the tiniest elements of the interface – was built with the user and real-world scenarios in mind. By combining best-in-class technology with unique eDiscovery know-how, ONE Discovery can deliver extreme system performance, unparalleled accuracy and defensibility, and the industry's best overall user experience for service providers, law firms, corporate counsel and more.

Recommind, now an OpenText company is a leader in information intelligence, delivering breakthrough software applications that harness the power of information to solve concrete business problems. Recommind customers include AstraZeneca, BMW, Cisco, Clifford Chance, Marathon Oil, Morgan Lewis, the U.S. Securities and Exchange Commission (SEC), Swiss Re, the U.S. Department of Energy (DOE), White & Case and WilmerHale.

At Relativity, we make software to help users organize data, discover the truth, and act on it. Our e-discovery platform is used by more than 13,000 organizations around the world – in the cloud, on-premises, or both – to manage large volumes of data and quickly identify key issues during litigation, internal investigations, and compliance projects. Relativity has over 160,000 active users in 40+ countries from organizations including the U.S. Department of Justice, more than 70 Fortune 100 companies, and 199 of the Am Law 200. As a platform, Relativity also allows developers to design, build, and integrate applications that extend its functionality. Relativity has been named one of Chicago's Top Workplaces by the Chicago Tribune for seven consecutive years.

Women in eDiscovery members are women who work within the legal industry, including general counsel, secretaries, partners, associates, chief operating officers, paralegals, litigation support and eDiscovery professionals. Membership is free and its executive board, regional directors and chapter officers operate on a 100 percent volunteer basis.

Local chapters typically hold an educational session, some CLE-accredited, each month, and the national board organizes larger events around major legal technology trade shows and association meetings throughout the year.

About Women in eDiscovery

Women in eDiscovery (www.womeninediscovery.org) is an organization that brings together women around the world who are interested in technology related to the legal industry. Its goal is to provide opportunities for businesswomen to grow personally and professionally through leadership, education, networking support and recognition.
